

INTRODUCING TO AUSTRALIA HIGHGAITPAWS AMERICAN EDITION

Osiris(V) and Chat D'Or are proud to announce a new arrival to strengthen the lines in our cattery. Ed is a tawny Abyssinian male, who carries blue.

This is a lovely pedigree with some very well-known Clarion cats behind him (for example Clarion Little Man Tate) that have been very successful both in the USA and Europe.

Ed arrives late in July into Eastern Creek, Sydney, since there are quarantine stations only in Sydney, Melbourne and Perth, but not Brisbane. We would like to take this opportunity to thank George Kennedy whom we trust and respect to go and visit him in quarantine. I am sure George will manage some nice photos for us.....

We cannot thank Dave and Mindy of Highgaitpaws enough for allowing yet another Highgaitpaws male to travel to Australia to help with the Abyssinian breed. His pedigree is different to that of Chat and Helen's boy Morrie.
